

Principaux minéraux observés en LPNA et LNA

(roches magmatiques et roches sédimentaires)

Quartz

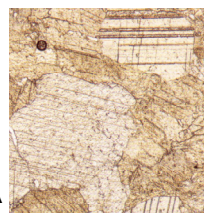

LPNA

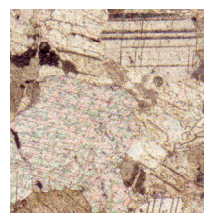

LPA

Calcite

(minéral carbonaté, roches sédimentaires)

LPNA

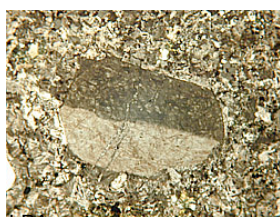

LPA

Orthose : (Feldspath alcalin)

LPNA

LPA

Feldspath plagioclase

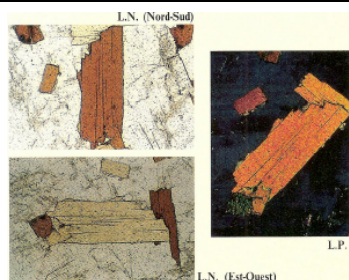

L.N.

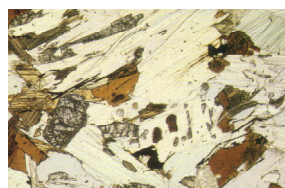

L.P.

Mica noir (biotite)

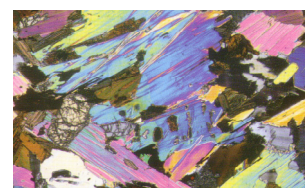

L.N. (Est-Ouest)

Mica blanc (muscovite)

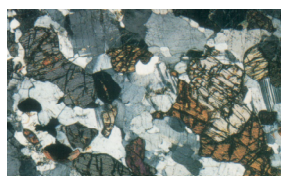

LPNA

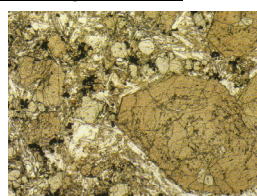

LPA

Pyroxènes

Orthopyroxène

Clinopyroxène

LPNA

LPA

Amphiboles

Hornblende brune

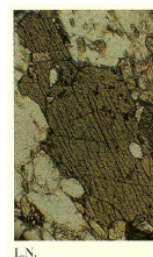

LPNA

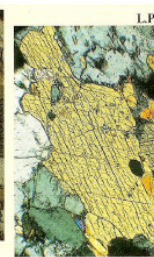

LPA

Hornblende verte

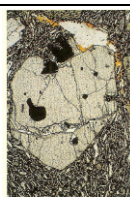

L.N.

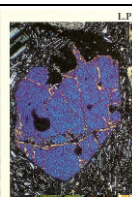

L.P.

Olivine

LPNA

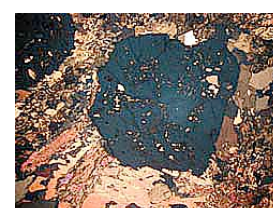

LPA

Grenat
